SUMMARY

With 13+ years of experience developing web applications across a wide range of technologies, I'm passionate about delivering scalable solutions. I'm a fast learner who loves staying ahead of industry trends and implementing best practices.

WORK EXPERIENCE

Dates

Software Developer – Responsive Auto Insurance Company 2025 - Present

Developed and maintained the backend and front end systems for insurance providers serving millions of auto policyholders in Florida.

- Migrated legacy SQL stored procedures rating algorithms to Node.js and MongoDB endpoints.
- Integrated third-party APIs automating the underwriting process of insurance quotes.
- Implemented AI document analysis to extract claim details, reducing manual review steps.

Front-end Developer – Q Link Wireless (StandUpWireless) 2022 - 2024

Developed and maintained the client-side web application offering mobile plans to millions of Americans at one of the largest Lifeline telecom providers in the U.S.

- Migrated the main site from an in-house Knockout.js framework to Vite.js and React.js.
- Created landing pages in Next.js to run A/B tests and track marketing campaigns.
- Implemented CI/CD Pipelines with automated Unit Tests streamlining the development process.

Lead Front-end Developer – Menus.Eco 2019 - 2022

Led the development team for a web application offering digital menus and inventory management for restaurants.

- Migrated from PHP and jQuery to Next.js and React, improving performance and maintainability.
- Coordinated the development teams to implement new database endpoints serving REST APIs.

Front-end Developer – Independent Contractor 2015 - 2019

Contributed to various projects in collaboration with domestic and off-shore teams.

Technical Assistant – Globant 2013 - 2014

Joined the technical team responsible for Application Management Services for Johnson & Johnson's Oracle practice, utilizing the JD Edwards EnterpriseOne development tool.

UI Developer Internship – Warner Music Group 2012 - 2013

Collaborated with the development team to redesign the UI of the Warner Information System (WARIS.Net), a Visual Basic .NET multi-tier client-server application.

SKILLS

Front-end

- React
- TypeScript
- JavaScript
- jQuery
- HTML5
- CSS
- SASS
- Tailwind
- Bootstrap
- AJAX
- SSR & SSG

Frameworks

- Next.js
- Vite.js

Back-end

- Node.js
- Express.js
- REST APIs
- MongoDB
- SQL
- PHP
- Postman
- PostgreSQL

Source Control

- Git & GitHub
- GitLens
- GitKraken
- npm
- Bitbucket

Cloud & Deployment

- AWS
- Azure
- Google Cloud
- CI/CD Pipelines
- Vercel
- Bitbucket

Testing

- A/B Testing
- Unit Testing
- Playwright

CMS & SEO

- WordPress
- Open Graph

Libraries

- Axios
- React Router DOM
- React Hook Form
- Sentry
- Auth0
- Redux

Design & Prototyping

- Adobe Photoshop
- Adobe Illustrator
- Adobe XD

EDUCATION

Credits

2015 - 2016	Miami Dade College – A.S. in Graphic Internet Technology	12
2014 - 2015	University of Buenos Aires – A.S. in Graphic Design	28
2012 - 2014	Argentina Business University – B.A. in Computer Science	51

LANGUAGES

I am fluent in English and Spanish, oral and written proficiency.
